

INTELLIGENT VIDEO YOUR WAY

SYMMETRY™
COMPLETEVIEW 20/20

VIDEO MANAGEMENT FOR EVERYONE

A G4S COMPANY

USER FRIENDLY

SIMPLE DEPLOYMENT

POWERFUL

Symmetry CompleteView 20/20 provides users with unmatched deployment simplicity and scalability for security needs of all sizes. Use as a stand-alone system or as part of a global enterprise system when integrated with Symmetry Access Control and Symmetry Control Room to deliver a unified solution that is simple, scalable, and secure.

The user friendly, intuitive Symmetry CompleteView 20/20 software provides a comprehensive set of integrated video control features including the bandwidth-reducing benefit of Dynamic Resolution Scaling (DRS). With DRS, Symmetry CompleteView 20/20 takes a single high resolution video stream from the camera, records it, but only sends the lower resolution needed for display to the various client users for fast and efficient remote investigations.

Symmetry CompleteView 20/20 integrates with leading camera manufacturers and analytics, transforming video into actionable intelligence to aid in the proactive detection of critical or unusual events. CompleteView 20/20 also delivers a seamless migration path from analog to IP cameras protecting your investment.

Decrease installation and configuration time as the full range of Symmetry PowerProtect NVRs support Symmetry CompleteView 20/20 and are ready to deploy from the box. Software comes pre-installed on PowerProtect NVRs providing a purpose-built video surveillance appliance engineered for continuous operation. In addition, Symmetry CompleteView 20/20 software updates are included (3 or 5 years matching selected hardware warranty) when software is purchased with PowerProtect NVR(s) from AMAG.

Fully integrated with Symmetry Control Room and Symmetry Access Control

Manage and administer faster as a unified solution

Efficiently conduct remote video investigations through the bandwidth-reducing benefit of DRS

Support for industry leading cameras and video analytics

Easily evolve from analog to digital IP

Decrease setup time as Symmetry PowerProtect NVR appliances come pre-installed with software

DYNAMIC RESOLUTION SCALING IS EASY ON MY NETWORK WHILE DELIVERING OPTIMUM QUALITY.
