THE ULTIMATE VISITOR EXPERIENCE

SYMMETRY™ GUEST

VISITOR MANAGEMENT SYSTEM

AMAG TECHNOLOGY

A G4S COMPANY

MEET COMPLIANCE REDUCE COST ENFORCE SECURITY

Symmetry™ GUEST is a web-based policy driven visitor management system that automates all processes associated with the lifecycle of a visitor, delivering a fluid visitor experience that maintains security, enforces compliance and reduces operating costs.

SYMMETRY GUEST ALLOWS NORTHWESTERN MUTUAL TO WORK SMARTER, NOT HARDER AND LEVERAGE TECHNOLOGY TO REDUCE RISK.

- BRET DUCHATEAU [CORPORATE SECURITY, NORTHWESTERN MUTUAL]

Improves the visitor experience

Streamlines the journey through the reception area by reducing lines

Pre-register visitor via Outlook or Gmail calendar

Operates on a PC, tablet or smartphone

Enforces security, non-disclosure agreements and visitor policies

Refuse entrance based on watch list match

Integrates with Symmetry Access Control or operates as a stand-alone system

Integrates with commercial off-the-shelf visitor management hardware

Simplifies employee involvement and provides increased security

Employees pre-register visitors with Symmetry GUEST or using Outlook or Gmail. The visitor receives a welcome email which can contain a map, travel instructions or arrival instructions. Symmetry GUEST sends a QR or barcode to the visitor's smartphone. Visitors can check-in via the self-service touchscreen monitor (tablet) or their smartphone, allowing organizations to optimize how lobbies are manned and managed. An automatic email or text is sent to the host employee when their visitor arrives so the employee can greet their visitor.
