Javelin S874-EX-KP
Smart Card Reader

The Javelin S874-EX-KP is a smart card reader with keypad designed for extreme weather conditions and environments for integrated access control. The attractive, contemporary black and silver finish is designed to complement any office or building environment.

The Javelin S874-EX-KP reads NXP MIFARE®, MIFARE® Plus, MIFARE® DESFire and MIFARE® DESFire EV1 smart cards, in addition to PIV, TWIC and FRAC cards.

The Javelin S874-EX-KP is designed for use with the Symmetry range of door controllers and is compatible with all versions of Symmetry software.

The Javelin S874-EX-KP uses secure, bi-directional, pseudo-random supervised MCLP communications to the door controller. Both the card reader and cable are supervised, and an alarm will be generated if the card reader is tampered with or communications lost.

Wiegand communication is also supported between the card reader and controller.

Extreme Environment
The membrane keypad has been designed to allow the S874-EX-KP card reader to operate in extreme weather conditions, enabling full functionality in heavy rain, seawater, freezing and snowy conditions.
